ARCHITECTURE & QUALITY: Full-stack feature ownership, component-driven architecture, Feature-Sliced Design (FSD), SSR, performance optimization, legacy refactoring, Jest, React Testing Library

DELIVERY & OPERATIONS: Docker, GitHub Actions, CI/CD, VPS administration, Git, production deployments

PROFESSIONAL EXPERIENCE

Senior Frontend Developer / Full-Stack Engineer | Extrachain.io | May 2023 - Present

Fintech and data-intensive product engineering

- Own product features end to end across the web application layer, from architecture and implementation to production support.
- Migrated React single-page applications to Next.js and established scalable module structure, linting rules, and build configuration.
- Designed and maintained backend services, database-backed workflows, and API integrations using Next.js, tRPC/T3 Stack, NestJS, and PostgreSQL.
- Built real-time WebSocket interfaces, trading charts, complex data flows, and integrations with external APIs.
- Containerized services with Docker and maintained VPS environments for reliable production deployments.
- Implemented GitHub Actions CI/CD pipelines for automated checks, builds, and deployments.
- Refactored legacy code and improved application performance, maintainability, and delivery workflows.

Middle Frontend Developer | Temabit.com | Aug 2021 - May 2023

E-commerce | Silpo ecosystem | Product development

- Delivered React and Next.js features with server-side rendering for one of Ukraine's largest grocery retailers.
- Engineered WebSocket-based asynchronous data flows and complex business logic with Redux-Saga.
- Contributed to task breakdown, estimation, code reviews, and frontend technical decisions within the product team.
- Refactored legacy code and strengthened shared review practices to improve maintainability.

ADDITIONAL EXPERIENCE

Junior Frontend Developer | Softpro.ua | Aug 2020 - Aug 2021

Built accessible HTML/CSS geoportals with multilingual and multi-theme support.

Trainee Frontend Developer (CRM Domain) | BizRaise | Jun 2019 - Jul 2020

Built and adapted CRM interfaces using HTML, CSS, and JavaScript.

Freelance Frontend Developer | Selected projects | 2022 - 2023

Built React and responsive HTML/CSS websites; handled deployment, domain setup, and email service integration.

Frontend Developer | Merehead.com | 2022 - 2023

Delivered short-term frontend work for a blockchain-related web application.
